

Contents

1. Introduction and Epidemiology	1
2. Pathogenesis	3
• NonInflammatory Stage	3
• Inflammatory Stage	4
• Factors that Determine Acne and their Therapeutic Implications	6
3. Clinical Features	9
• Acne through the Ages	9
• Work-up	10
• Clinical Lesions	11
4. How to Treat Acne?	18
• Approach to an Acne Patient	18
• Treatment	24
• Diet and Acne	47
5. Surgical Treatment and Lasers in Acne	50
• Active Acne	50
• Acne Scars	52
6. Guidelines of Treatment	54
• Comedonal Acne	54
• Mild Inflammatory Acne	55
• Moderate-to-Severe Inflammatory Acne	56
• Severe: Nodulocystic Acne	57
• Acne Myths	59
7. Differential Diagnosis of Acne and Acneiform Eruption	66
• Rosacea	66
• Perioral Dermatitis	66
• Infectious Folliculitis	67
• Pityrosporum Folliculitis	67
• Eosinophilic Pustular Folliculitis	67
• Pseudofolliculitis Barbae	69
• Demodex Folliculitis	69

- Hidradenitis Suppurativa 69
- Acne Keloidalis Nuchae 69
- Gram-negative Folliculitis 69

8. Case Scenarios 72

Case 1 to 8

- Clinical Correlate 72
- Advice 72
- Clinical Correlate 73
- Treatment 73
- Management 74–79

9. Patient Education and Information 80

- How does Acne Develop? 80
- Causes of Acne 80
- Treatment of Acne 81

Patient History taking Performa 85

- Examination 86
- Systemic Examination 86
- Mucocutaneous Examination 86

Appendices 87

- Acne Scar Severity Grading System 87
